SPARITUAL

personal values/ corporate responsibility

At SpaRitual, environmental and social awareness is more than a line in a mission statement...it is our mantra. For us, being conscious is not enough. We are active participants in a global movement to change the way business is conducted and are constantly on the lookout for ingredients and processes that lessen our impact on the environment. We also seek out vendors that share our values by practicing sustainable farming methods and by paying their workers a living wage.

compassion

All SpaRitual Body Care products are 100% vegan with no animal by-products. We never have and never will test our products on animals.

forest stewardship council

The Forest Stewardship Council (FSC®) represents the world's strongest system for developing sustainable forest management. SpaRitual uses FSC-certified paper for all our packaging, literature, marketing materials and paperboard displays.

sourced with awareness

SpaRitual uses only the highest quality ingredients that go through rigorous internal and external testing. We require certification from all suppliers to confirm that very specific standards are consistently met. Whenever possible we use Certified Organic ingredients in our formulations. Certified Organic plants are grown without synthetic herbicides, pesticides or GMO's. SpaRitual vegan spa products are also paraben-free. Most of our products contain Certified Organic ingredients and we are committed to sourcing the finest ingredients available.

safety

What we put on our bodies is as important as what we put in our bodies. All of our nail lacquers are **vegan** and formulated without DBP, toluene, camphor, formaldehyde and formaldehyde resin.

resource efficiency

We are committed to using recycled and reusable materials whenever possible. Our glass bottles and acrylic displays are made from at least 50% recycled materials. Even our tradeshow and conference booth is constructed using materials that reduce the brand's environmental impact.

We value YOU and so much more...

packaging & printing

We use vegetable and soy-based inks and environmentally friendly paper in all printed materials and outer packaging, including FSC-Certified and post-consumer recycled papers. We are constantly sourcing vendors who use the most upto-date and environmentally sound practices. Some of our packaging has been manufactured with wind power.

shipping & packing

In addition to using incoming packaging material for outgoing product packaging, SpaRitual uses a resilient, shock-absorbing packing cushion that can be shaped and adapted to any container and its contents. Composed of 35% post-consumer recycled paper and pulp.

Fair trade practice

Fair Trade USA certifies and promotes products that support sustainable development and community empowerment, by cultivating a more equitable global trade model that benefits farmers, workers, consumers, industry and the earth. We actively search for partners who share our respect for the environment and pay their workers a living wage.

sustainability

Sustainability is a lifestyle and a calling, SpaRitual is committed to spreading the word. While we've always been green, we strive to be greener. We encourage our partners and customers to be more conscious about their business practices and buying habits.

energy efficiency

Our warehouse uses high-efficiency T5 lamps and solid-state electronic ballasts, cutting our energy consumption in half.

giving back

Giving back to the communities we work in is very important to us. Every year we align with charitable organizations that share our values.

SpaRitual believes that slowing down is the path to enlightenment and is committed to creating earth-sustaining products that relax, nourish, and reconnect mind, body and spirit. Only in a place unconstrained by time, envy or vanity can we experience our true selves. This place is where we find Slow Beauty.

We believe that what we put on our bodies is as important as what we put in our bodies. We formulate our body care products with vegan ingredients from around the world, including many specially sourced and selected plant essences that are certified organic and fair trade. Our nail lacquers are 100% VEGAN and formulated without DBP, toluene, camphor, formaldehyde, and formaldehyde resin. All SpaRitual products are designed to complement and enhance the Slow Beauty experience. Unique to our body care and nail lacquer categories are 4 States of Slow Beauty. Each contains a signature scent and color palette that creates a multisensory Slow Beauty Experience.

Step off the fast track and join us. Be a SpaRitualist. Slow Beauty® for a Fast World.

HOUARE HOONCSANG

Lifestyle futurist Shel Pink captured the attention of the spa industry when she founded and launched SpaRitual in 2004. With a clear idea of an enlightened consumer in mind she created the brand to honor the spa tradition of treating the collective mind, body and spirit.

Throughout her childhood, Shel's mother emphasized the importance of a healthy diet, regular massage, alternative healing and limiting exposure to harmful environmental toxins. Decades before the word "holistic" became mainstream Shel was already living the lifestyle. In college she discovered yoga, meditation and Ayurveda.

Early on, Shel recognized the overwhelming need for a brand that could start a dialogue about what it means to be truly beautiful. SpaRitual is committed to creating multisensory, earth-sustaining products using specially sourced vegan ingredients from around the world, focusing on those that are Certified Organic and Fair Trade. The body care products are biodegradable and free of synthetic dyes, petrochemicals and parabens. SpaRitual nail lacquers are 100% vegan and formulated without DBP, toluene, camphor, formaldehyde and formaldehyde resin. We will never stop looking for ways to make sure that our products are good for people and good for the planet.

the new generation of nail color

spakitual philosophy on

GOLD

2 STEP FLEXIBLE COLOR™ SYSTEM

SpaRitual is committed to creating spa products that honor the spa tradition and help sustain a Slow Beauty® practice, always with the spa technician and guest in mind. Keeping these guiding principles, we've aligned SPARITUAL'S GOLD FLEXIBLE COLOR™ SYSTEM to extend

the Slow Beauty experience. A 2-STEP application process DOUBLES THE WEAR OF YOUR MANICURE, is EASY TO APPLY WITHOUT CURING UNDER AN LED LAMP AND IS EASY TO REMOVE with SMUDGE-REPAIRING BENEFITS that quickly dries with a high-shine finish.

DID YOU KNOW SPARITUAL GOLD IS...

Vegan

• Formulated Without DBP, Toluene, Camphor, Formaldehyde and Formaldehyde Resin

2 STEP FLEXIBLE COLOR™ SYSTEM

DOUBLE THE WEAR OF YOUR MANICURE

TIP For extended wear, re-apply GOLD Flexible Topcoat after 3 days

DOUBLE THE WEAR OF YOUR MANICURE

with GOLD 2 Step Flexible Color™ and Flexible Topcoat System.

- Easy application and removes with a swipe of lacquer remover
- Smudge Repairing Technology self-levels and self-corrects
- Quickly dries to a high-shine finish with natural ambient light

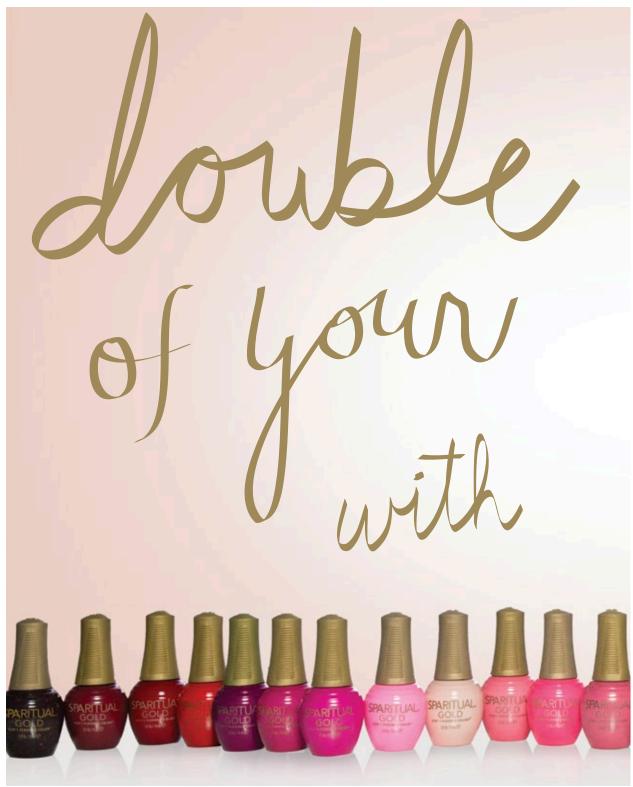

Mey MINDFUL BRUSH

over 600 bristles fan out on the nail providing maximum control and a precise application

KNOMS

GOLD does not require a basecoat. The 2-step system fuses together creating a durable manicure.
